- Gilt Strip
- Yellow Silk
- Red Silk
- Blue Silk
- Black Silk
- Silver Strip
- White Silk

Note: There is no easy way to determine the actual color of most of the corroded metallic strip. Some or much of what is shown here as gold might be silver.

A note on colors:  
As mentioned on the previous sheet, the current state of the bag makes determining colors difficult.

The bottom motif to the right are the arms of John II of Brabant (quartered black and white, with gold and red lions). The white here is badly corroded silver strip, the black almost completely crumbled away.
